

Top-Quality Euro & Asian 6 and 24 Volt Signal Bulbs

Finest German Quality • **(E1)** Approved
Non-corroding Nickel Plated Bases

Commercial, military and vintage vehicles use 6v and 24v bulbs that can be difficult to find in North America, especially where original-equipment quality is required. Candlepower stocks a full range of these bulbs to help keep specialty vehicles safely on the road. They're precision-engineered and built in Germany to rigid OEM quality standards with top grade materials, and carry the **(E1)** Type Approval mark—the toughest approval mark to get, and your assurance that these bulbs don't just fit, they match!
