Source for % data:  
 AutoExpress Headlight  
 Bulb Challenge, 2003

175 ft straight ahead **28% brighter!**    250 ft straight ahead **48% brighter!**    175 ft ahead at edge of road **36% brighter!**

Candlepower Xenon Bright Light Blue bulbs give the driver excellent visibility with cutting edge styling. Their sharp, bright daylight white appearance when lit, and stylish blue appearance when off, lend a touch of luxury to any car. They are specially engineered with Xenon gas and a precision tungsten filament to give the same excellent performance as our clear bulbs, without any dangerous extra heat or electrical overloading. Their light output meets all DOT and ECE legal requirements for on-road use. Tough independent tests prove these are the brightest, longest lasting, highest quality blue-white bulbs available.
