

Narva Headlamp Bulbs from Candlepower (Metal Base)

Exceed tough OEM specifications
UV-blocking glass • safe for all plastic headlamp parts
Quality & Value Leaders!

Candlepower's Narva headlamp bulbs offer true major brand quality at penny pinching prices. Manufactured to rigid original equipment quality standards under strict German supervision, these bulbs are the durable, economical choice for OEM installation and make excellent service replacements. They feature precision focused filaments, tough UV-blocking hard glass, and high quality blacktop that won't flake or peel. They are rigorously tested for DOT/ECE compliance. Compared to lower quality "bargain bulbs," these new-car quality bulbs improve lighting performance and customer satisfaction. They reduce service comebacks, vehicle downtime, and warranty costs. And when you buy from **Candlepower**, you don't just get top quality bulbs. You get the full resources of our dedicated, hardworking team committed to supplying the right bulbs, at the right price, to meet the needs of any job, large or small.

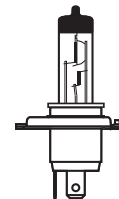

Type	Replaces	Watts	Base	Lumens	Hours
